

From the Desk of Invicta

March has been a month of innovation and expansion at Invicta Clamps. We continue to strengthen our position as a reliable partner in engineered fastening solutions, with new product developments and a growing focus on global compliance standards.

Product Spotlight: Snapback Clamps for Concrete Pumps

Invicta Clamps introduces high-performance Snapback Clamps specifically designed for concrete pump applications.

Key Benefits:

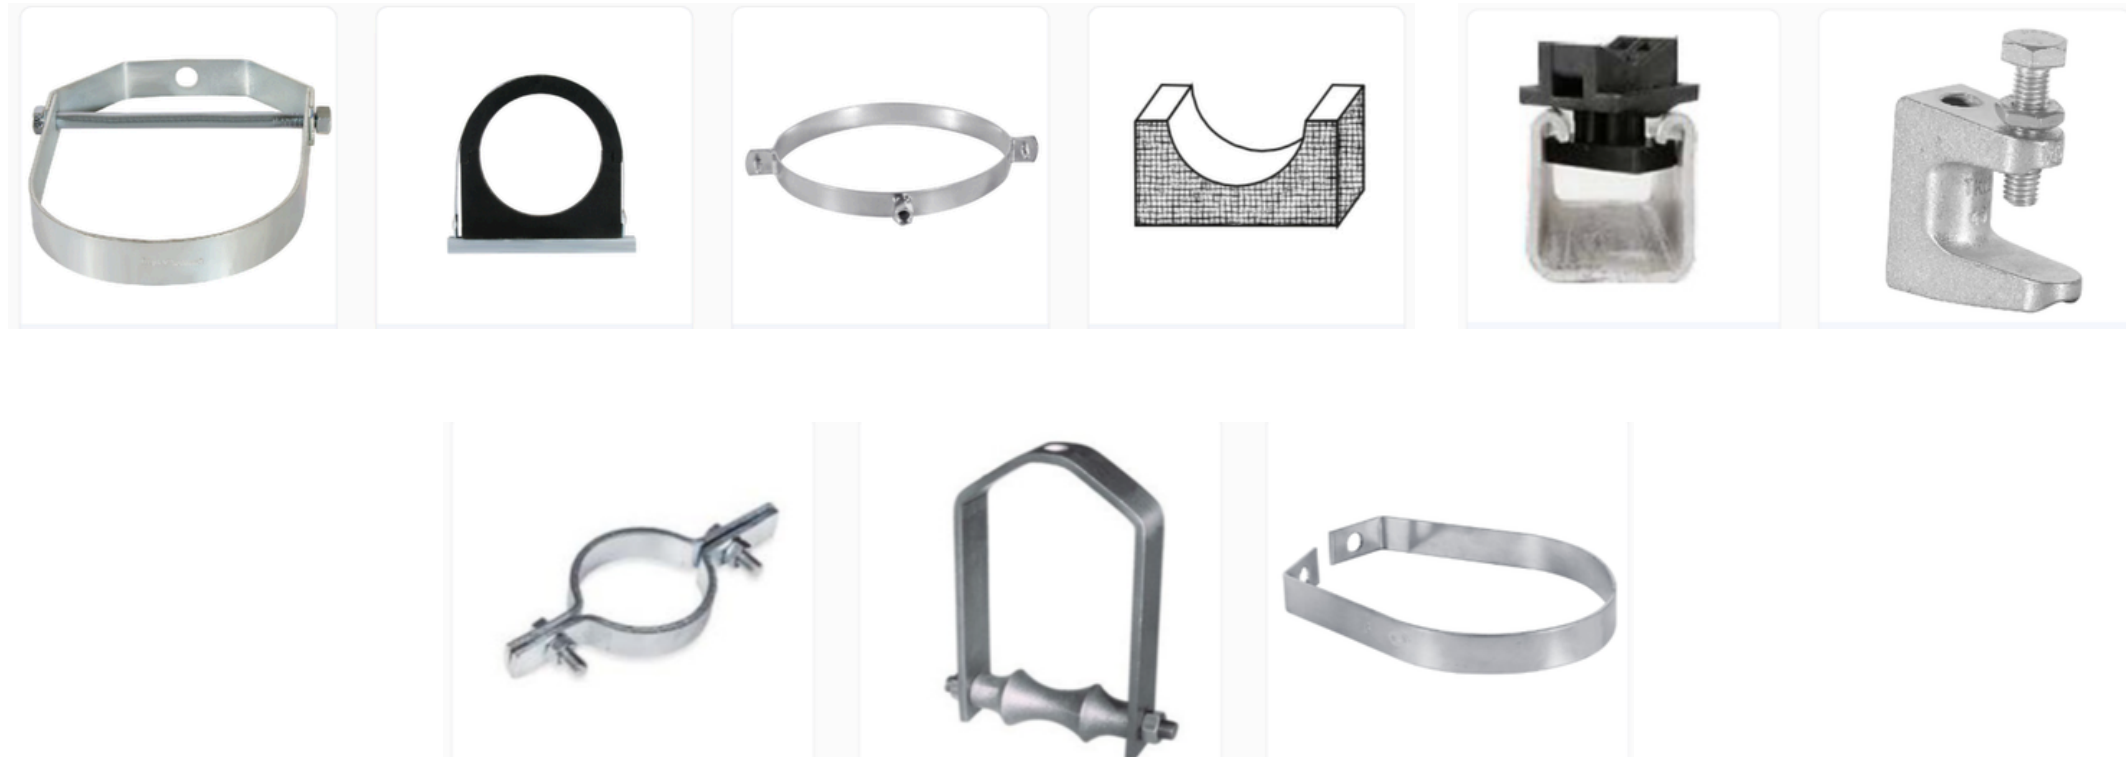

- High strength for extreme pressure conditions
- Quick installation and removal
- Durable performance in abrasive environments
- Enhanced safety with secure locking mechanism
- These clamps are engineered to withstand the demanding conditions of construction sites, ensuring reliability and reduced downtime.

New Launch: Industrial Clamp Range

We are proud to introduce our expanded range of Industrial Clamps, catering to diverse applications across industries. These clamps are engineered to withstand the demanding conditions of construction sites, ensuring reliability and reduced downtime.

Applications

- Fluid transfer systems
- Heavy machinery
- Industrial piping
- Process industries

Highlights

- Wide size range
- Custom-engineered solutions
- High corrosion resistance
- Designed for long service life
- Innovation Showcase
- Hub Coupling Clamp

Couplings

Designed for precision alignment and secure coupling, our hub coupling clamps offer:

- High load-bearing capacity
- Superior fitment accuracy
- Reliable performance under vibration

Cushion Clamps

Our Cushion Clamps are engineered for:

- Vibration damping
- Noise reduction
- Protection of pipes and cables

Ideal for automotive, industrial, and HVAC applications, these clamps enhance system longevity and stability.

Compliance Focus: CBAM Readiness

As global regulations evolve, Invicta Clamps is committed to aligning with the Carbon Border Adjustment Mechanism (CBAM) requirements.

- High load-bearing capacity
- Superior fitment accuracy
- Reliable performance under vibration

Our Approach:

- Monitoring carbon footprint across the supply chain
- Engaging with suppliers for transparency and compliance
- Implementing sustainable manufacturing practices
- Preparing documentation for seamless exports to EU markets

Our proactive steps ensure that our customers remain compliant, competitive, and future-ready.

Partner with Invicta Clamps: With a strong focus on engineering excellence, quality assurance, and global standards, Invicta Clamps continues to deliver solutions that power industries worldwide.
