Company Profile

Invicta Clamps is the clamping solutions brand of Rex Consolidated, an Indian manufacturing company established in 1978. We manufacture exhaust and universal clamps primarily for European, American and Japanese cars and trucks, alongside other commercial vehicle and industrial applications.

Our aftermarket range includes U-bolt exhaust clamps, V-band clamps, band clamps, T-bolt clamps, hose clamps, rubber-lined P-clips and heavy-duty mounting clamps. These products support the securing and joining of exhaust systems, hoses, pipes and other vehicle components.

Backed by Rex Consolidated's engineering experience and ISO 9001 and ISO 14001 certifications, we focus on consistent quality, accurate fitment and dependable supply.

Manufacturing Capabilities

Our capabilities cover metal forming, stamping, bending, welding and clamp assembly, with material and surface-finish options suited to the intended application. We manufacture clamps in carbon steel and stainless steel, offering corrosion protection and material grades according to customer requirements.

From tooling and prototype development to production, inspection and packaging, we support standard aftermarket parts and customised designs. Components can be developed from drawings, specifications or reference samples, with attention to dimensions, fastening arrangements, installation requirements and operating conditions.

Global Presence

As part of Rex Consolidated, which exports to more than 70 countries, Invicta Clamps serves aftermarket distributors, importers, exhaust specialists and replacement-parts businesses supplying European, American and Japanese vehicle applications.

Our export experience enables us to support varied product specifications, packaging requirements and shipment arrangements. We help customers expand their exhaust and universal clamp ranges through responsive product development and reliable supply.
